

INTRODUCTION

Why, man, he doth bestride the narrow world Like a Colossus and we petty men Walk under his huge legs, and peep about To find ourselves dishonorable graves
Men at some time are masters of their fates:
The fault, dear Brutus, is not in our stars,
But in ourselves, that we are underlings.
Julius Caesar (1599) act 1, scene 2 Shakespeare

The subject of Fate or Destiny has triggered many a philosophical argument. What is destiny? Are the details of our lives pre-destined? How much free will do we really have? These are imponderable questions. This report does not offer the answers. Rather it gives us some signposts to help us on our life journey.

When meteorologists forecast the weather we understand that they are not telling us how to live our lives. Rather they are giving us information that may help us make our own decisions. As far as the weather is concerned our major decisions are whether or not to dress warmly or to take an umbrella. The astrological system of Transits is offering us much the same information. It is giving us an indication of the emotional and intellectual weather of our lives. It is up to us to decide our own destiny.

Joint enterprises bring benefits during this period, as long as you show some restraint. It would be easy to make grand plans for investments and joint businesses during this time but you would do better to plan carefully. It is also possible that you receive a gift, a legacy or inheritance. Metaphysical matters may also appeal.

Life can take on an explosive quality during this period as you struggle to achieve your goals. It seems as though other people and external events are deliberately plotting to thwart your every move. However, it may be that you are going overboard in your attempts to get your own way. The trouble is that you want to make great changes in your life, but lack the necessary tolerance and patience to get the timing right. Power and the abuse of power may become a focus of your life. You would be wise to muster as much restraint as is possible or you may simply go too far and lose the lot.

This is a favourable time for your health and happiness. Right now you can enjoy joyful occasions, benevolent friends and pleasurable pursuits. You may travel abroad, study a subject that has always fascinated you, achieve success and awards, or simply sit back and enjoy peace of mind. You may enjoy socialising more right now, perhaps with people in the higher echelons of society. Your social contacts may benefit your life. People in high places may bestow gifts on you. If you are married then your spouse may be particularly supportive. Now is an ideal time to start a healthy diet or exercise regime, particularly as you are apt to put on weight through too much good food and socialising. Self-improvement courses may also attract you, as you feel generally good about yourself and your relationships. You may also take on a teaching role during this time. Generally speaking this is a time where you learn more about yourself, experience the benefits of good relations and have the ability to make your mark on the world.

Jupiter in the 9th House

Jupiter Conjunction Midheaven

(Exact 10 Feb 2010)

You have reached the culmination of a cycle in your life and are ready to reap the rewards of seeds sown earlier. Your career and home life are particularly influenced by this phase. The rewards depend largely on whether or not you have sown your seeds on fertile ground. If you have squandered opportunities in the past, not paid attention to details or shirked your responsibilities then you could find this a difficult time. However, it is far more likely that you reap the riches of past actions. You have opportunities to expand your career choices either through study, promotion, new job opportunities or a change of direction. You may even become a parent, if this is one of your life goals. You may study or travel in order to expand your professional choices. Whatever the circumstances you are feeling confident and now is a good time to broaden your professional horizons. Beware only of over-confidence that could lead to taking on too much or making unwise choices. Consider your career prospects and professional responsibilities carefully. Your home life may also benefit as a result of your advances in your career. Take care not to neglect your family and everyone should enjoy this worthwhile phase.

This is a feel-good transit. In other words you feel good about yourself, your life and your loved ones. As a result you are particularly warm and loving. Your contentment is obvious to your loved ones, and they want to spend time with you. Right now you know how to have a good time, and indulge yourself. The only concern is the tendency to go to extremes. You need to be wary of over-indulgence in all things. The temptation is to express your feelings and indulge yourself with no restraint or consideration for others. However, if you can keep a balanced outlook then you and your loved ones benefit from your generous and optimistic outlook. It is also possible that you use this time to make your life, in particular, your home more comfortable. This could simply be purchasing more comfortable furniture and furnishings, or you may make plans to move to a home more suited to your current needs. Your family life may expand in some way. Perhaps a family member will come to stay or perhaps you will give birth to a child. Either way you are likely to welcome these changes. This is a positive move, as long as you take everyone's needs into consideration.

Now is a time when you are saying "goodbye" to one phase of your life and entering a new one. You come face to face with the past and have to make some difficult decisions. Perhaps you decide that you have paid your dues to a difficult relationship. As a result you move on with your life, knowing that you have done all that you can to resolve any difficulties. On the other hand you may decide that your work is done in one area of your life and you are ready to start again in a new field. Life becomes filled with situations that can no longer be avoided. There is a time to reap and a time to sow. This is the time for sowing. You may feel alone and burdened. It is best to shoulder your responsibilities knowing that we all have to live with the consequences of our actions. If you feel you do not deserve such a difficult time as a result of your current life actions, it may be that you are reaping the consequences of a past life. You may even suffer from a disease. Either way this is an elimination process from which you can gain much strength, and will be able to move on in your life with a renewed sense of purpose and a lighter load. After this period you are likely to feel that your load has lightened and that you ready to enjoy a more fruitful and honest lifestyle.

You want to move forward in your life, towards your goals, but someone or something seems to be standing right in the middle of the path. You meet resistance no matter how hard you try to get around these obstacles and at times lose patience. However, you would be wiser to use this time to reassess your direction in life. You may discover that you have taken the wrong track, or you may discover new insights about your current goals and purpose. This is a valuable time for helping you to become more practical about your life's goals. It is easy to feel that the world is against you during this transit. In fact your wings have been clipped. You are being required to readjust your expectations. It may be that other people are imposing restrictions on you, or that you are feeling the results of over-extending yourself. There are moments in life when we reap the rewards of our hard work. Alternatively these moments can also be the consequences of poor decisions in the past. Hence this period of your life is a time of reckoning. The more that you have worked to achieve your goals with integrity and the co-operation of your loved ones on the home front or colleagues on the work front, the more that you reap the benefits. However, if you have shirked your responsibilities or alienated those closest to you in recent times then you are like to find this phase of your life quite difficult. It is time to put things right. Life may seem like an endurance test, which you are facing alone. Do not despair you have the ability right now to persist and put things right. Only you can answer the question of what needs to be achieved during this phase, whether this is reaping the rewards of your hard work or needing to make up for past mistakes. You may feel tired, worn out and old as your list of jobs seems overwhelming in comparison with your time and energy. There may be delays in your projects or simply a feeling that the fruits of your current labours are hard to see right now. It is a time to ponder on your priorities and discard any tasks that may be blocking your path, while shouldering responsibility in the areas, which are important. Meditation may be useful. Certainly it is a time to watch your diet and health. Although success may seem illusive during this phase, do not despair. Whether you realise it or not you are putting in place the building blocks for the future.

Your life is about to undergo a major change. This change can be gradual or sudden, depending on other aspects of your astrology. Whether or not this is a slow process, you now reap the rewards of past actions. In other words the knowledge that you have gained so far helps you make life-altering decisions. In a sense this period is a culmination point in your life so far.

This event is known in astrology as the "Saturn Return" and occurs approximately every 29 years. It means that the planet Saturn has done a full cycle and returned to its original position in your birth chart. The first "Saturn Return", at approximately 29-years-old, is one of the most important times of your life. You are leaving behind childhood and reviewing your life through new, more mature eyes. During this time your past comes under close scrutiny. You are being compelled to tackle life with a new maturity. It is time to take responsibility for your own life. You can no longer blame others for the challenges that you have faced. This can be an exciting time when you realize that you are free of the bonds that have restricted you from achieving your ambitions. Perhaps you have been trying to live according to parental expectations or you have been responsible for a weak or sick parent. It is also possible that you have allowed fear to dictate your decisions. Now is the time to face your fears and forge a new life. On a more positive note you may have achieved many of your life goals and now you are ready for new challenges. Now you can change your path. Whatever your own personal process, changes are likely. These can include a different career, home, country, marital status or the birth of children. Every person faces moments of choice in life and it is always possible that you may choose to forgo the opportunities offered at this time. Moving forward usually marks a separation process from the past, a time during which anything that no longer supports your life purpose is being broken down and remoulded, or discarded. This paves the way for new responsibilities to be shouldered as you move into the next cycle. You may feel overwhelmed and thus choose to maintain the status quo. As such you will then face the same lessons in another 29 years at your second Saturn return.

The second Saturn return occurs around the age of 58. If you have faced the trials early in life then you are likely to enjoy this period. You can look back with satisfaction on your achievements thus far and make sensible and rewarding plans for the future. Adjustments are challenging, but manageable. If you avoided facing your fears earlier in life then this period may be a little more difficult. You may have a sense of failure, realizing that you could have embraced change much earlier.

It is important, during both of these life-changing periods, that you acknowledge your achievements rather than highlight your inadequacies. This is a time to focus on the positive and learn the lessons rather than judge yourself, or others, harshly. As such both of these periods are enriching and offer invaluable opportunities for gaining wisdom and understanding.

Saturn Square Ascendant

Saturn Opposition Mercury

From 01 Nov 2009 To 25 Dec 2009

This is a tense period during which you seriously question your life decisions, reassess your goals and attempt to make changes in your personal habits. On the positive side you are gradually gaining insight on past events. Your experience in certain areas of your life has taught you some valuable life lessons. As you face the past you are ready to tackle the challenges of implementing your knowledge and skills in a manner that truly reflects your own values, experience and goals. In other words you have gained some wisdom

and are ready, willing and able to both implement this in your own life and share this with other people. The problem is that others may not be ready to listen to you. Perhaps they have grown accustomed to viewing you in a certain light or perhaps they just refuse to change. Either way close personal and professional associates are likely to be uncomfortable with the changes that you are trying to make. Communications are fraught with difficulties and achieving your goals is hard work during this period. This is particularly true of committed relationships, business contracts, communication networks and financial exchanges. You also start to realize that you are currently living with the consequences of decisions made in the past, and need all the patience that you can muster to make the necessary changes. You may feel tense, as if everything is hard work. It is not an easy time to finalise any plans with long-term consequences, however; you can work slowly and steadily towards your goals. By the end of this transit you should have a clearer idea of your true options, knowing what can be compromised and what cannot. Sound business and personal relationships will be sustained, but those that no longer serve you are likely to be discarded as you seek to be truer to your own sense of purpose.

As a result you are particularly sensitive during this time, and need to take good care of yourself. It is possible that an event or person could upset your equilibrium. You may be introspective, pondering on childhood memories and relationships, particularly with parent figures. Although this can be a painful process, there is light at the end of the tunnel. You have the opportunity to gain new understanding of past events and move forward in your life with wisdom and insight.

Saturn Square Uranus

However, if you have allowed your life to become stuck in tired, rigid routines, this period can be very upsetting. Any area of your life that has become stuck in a rut is open to challenge and you will find it best to face the challenge of changing old patterns and embrace new and exciting plans.

You are being compelled to delve into your own emotional nature and ensure that your personal needs are being met. This compulsion may emerge from within or could be triggered by an external event or a loved one. Whatever the motivating factor, the bottom line is that you are being challenged to reassess your personal life. This can be a deeply rewarding experience with opportunities to forgive past failures, both your own and other people's. Ultimately this process paves the way for a rich and rewarding life, but it could be somewhat upsetting at first. You could learn to think of this period as being similar to the birthing process. Childbirth is a deeply challenging and painful experience, but the end result is the wonder and beauty of new life. You are, metaphorically speaking, going through something similar. Perhaps a painful memory will be forced to the surface by current events, or perhaps something happens to trigger emotional pain. Either way you are required to delve within for answers and to try new methods of handling your problems. It is important that you treat yourself lovingly and surround yourself with others who will love you. You now have the potential to heal problems that have held you back in life. Therapy, counseling or alternative healing methods may be helpful. You may also benefit from communing with nature. By the end of this period you will have gained insights that will help you in the rest of your life.

Pluto Square Mercury

From 11 Apr 2009 To 20 Jul 2009

(Exact 10 Jun 2009)

If you are an assertive individual then you could be quite feisty about expressing your opinions during this

phase. If you are normally quite shy then you may gain new confidence to speak out more. Your mind is more active than usual and you feel the need to express yourself in new ways. In some cases you may find that your mind is too active, that you have too many ideas, too many tasks that you are juggling and too many claims on your time. As a result you may not be responding to situations and other people with your usual calm demeanour. You are impatient, perhaps somewhat crabby at times. As a result you need to be careful of saying things that you don't mean to your loved ones and work associates. They can back fire on you later. You would be better advised to follow the old adage of "counting to ten" before stating what you think in the hope that you can avoid emotional arguments. You may find, however, that your tongue runs away with itself and you unwittingly hurt other people's feelings. It could also be that someone else is upsetting you through their lack of tact and diplomacy. Whatever the circumstances it is best to take a detached approach to problems where possible. You could benefit from joining a debating team or starting a study course if you feel the need to sharpen your mind. This is the ideal time to make sure that your diary is fully utilized, to make lists of priorities and perhaps even to start writing a journal. A creative project that makes the most of your mental skills or that encourages the use of your new insights will be greatly rewarding. For instance if you have ever wanted to be a writer or study something new now is a good time. Laughter is also a great way of easing tension, so make sure your sense of humour is expressed.

Pluto Opposition Ascendant

From 08 Jun 2009 To 05 Dec 2009

This is a once in a lifetime event, which demands modifications to your personal and business relationships. If you are single then you could meet someone who dramatically changes the course of your life. It is important that you choose wisely. If you are married then it is time to reinvent your marriage. You, or your spouse, are likely to challenge the status quo. Imagine that one scenario could be that you or your spouse is retiring from work thus changing the nature of your marriage. Whatever the scenario major adjustments are needed in your personal relationship. If your marriage is a sound one then you have no need to fear. However, if you know deep within that your marriage has been faltering for years then now is the time to face the reality. You need to go with the flow rather than fight against changes. Perhaps your partner is feeling the same way. For this reason counseling may be beneficial. It is important that the underlying reasons for any marital restlessness are explored and that the truth is revealed. This could be hurtful in the short-term, but is ultimately liberating. You are being forced to face your relationship with complete honesty. This can be a painful time when you feel that events are out of your control. They probably are. You may feel angry that you have been forced into a corner by your loved one. Although this is understandable, it is better to approach the situation one day at a time with all your integrity. The result will be a more honest relationship, both with yourself and your partner, and a sense of achievement that comes with surmounting any crisis. On the other hand you may enjoy the process of changing the course of your marriage. Both you and your partner may experience a renewed sense of joy and togetherness. A second honeymoon may result. It also possible that both you and your partner are eager to take on a new challenge together. Perhaps you both have been itching to make changes but have been held back by life's demands and responsibilities. Now is the time to let go and explore new experiences. Of course, you need to make sure that you are not squandering your life's savings or taking unnecessary risks. However, you can both benefit from a change of lifestyle. Imagine that you take a trip around the world. You both enjoy the trip and come back refreshed and changed by the experience. Business partnerships and contracts are also highlighted now. It is possible that you are about to sign a business deal for the first time. If so, you need to fully investigate your new partners' background and ensure that contracts are fair and reasonable. The opportunity exists for a life-changing business enterprise, but only if everything is above board and thoroughly checked. Existing business partnerships may reveal a few surprises during this period.
