Astrologers use the term "Progressions" to describe a particular technique of moving planets forward in time. This technique is aptly named because it describes how a person progresses through their life. Progressions describe the different phases in our lives as well as our inner urges and how they affect our lives rather than dramatic outer events. However, our urges can significantly affect the way in which we react to circumstances and therefore our decisions. It is important that we go with the flow rather than fight against the tides of our lives. Therefore Progressions are likely to show us signposts in life's journey and consequently help us gain wisdom and understanding. Some astrologers believe that Progressions are signs from our soul or higher self; others place less emphasis. We suggest that you read on and see for yourself.
PROGRESSED MOON

The road up and the road down are one and the same.
Heraclitus, Die Fragmente der Vorsokratiker c540-480BC.

Progressed Moon

The progressed Moon is considered important. The background theme of a person's life can be seen when the progressed Moon changes sign and house. Aspects of the progressed Moon can also be important in the timing of events. Some astrologers consider that the Moon lends its light as it aspects other points in the Natal Chart. Hence a point's importance is highlighted when aspected by the progressed Moon. The progressed Moon is the most important point because it is the only one that progresses through the entire zodiac during the course of a person's life.

Current Moon Phase is First Quarter

The Eagles song "Life in the fast lane" could be the catchphrase for this period of your life. That's because your life is about to speed up. It is now is time for action. You have been exploring a new direction in one or more areas of your life for the past seven or so years. Now your efforts are likely to pay off. You may be spolit for choice by the number of opportunities that arise now. You have the drive and ability to make the most of this phase, however; you may lack discrimination when it comes to making the right choice. Do not despair. You need to remain flexible enough to make the necessary adjustments to keep you on the right course for achieving your goals. It is time to face any fears that may be blocking your path. You may be frightened, but do not hesitate. You may also experience opposition from others as you begin to express yourself more forcefully. Listen to their concerns, make any necessary adjustments but do not let others determine the course of your life. You are in charge and need the freedom right now to learn your own lessons, even if you make some mistakes along the way. Your determination will reap great rewards during this phase. You are learning your craft and your experience will prove invaluable in the future.

Now is the time to look at the more practical side of life. After a period of exploring new artistic possibilities and creative ideas you are now eager to see some practical results. Your ideas and creative energy need a functional outlet. You are ready to slow down and consider the more mundane aspects of your ideas and your life in general. The more that you have harnessed the support of other people in the previous phase of your life, the more successful you will be now. If you have alienated loved ones or associates through self-centred behaviour then you are likely to experience some obstacles now. Also if you became carried
away with your own sense of self-importance then you are now required to reassess your ideas. On the other hand if you were inclusive and generous then you are likely to move forward with your project reaping the benefits of co-operation from other people. Either way you are being urged to come down to earth. You are now required to tie up the loose ends of the previous phase and to move forward in a more realistic manner. Plans, schedules, diaries and contracts may all feature. You may also be required to review your finances and make changes to your earning capacity or spending patterns. Changes in the previous phase may have resulted in the need to consider your finances in a new light. The ending of a significant personal or business partnership may result in a change of financial planning. Alternatively you may be researching the means to finance a creative project. Either way the more that you can pay attention to detail during this phase the more you will be able to enjoy the personal and creative aspects of the next phase. This is the ideal time to lay practical foundations in your life.

From 30 Jul 2015 To 16 Sep 2015
(Exact 23 Aug 2015)

You are feeling frustrated in your objectives. Impatience may mar this period. Therefore you need to ensure that you pay closer attention to your aims. Patience and collaboration are needed, rather than competition. Save any competitive urges for a demanding sport or solo adventure rather than projects that require the co-operation of other people. Avoid rash decisions and stressors that trigger your temper and this can be a rewarding phase during which your motivation is strong and your achievements satisfying.

**Moon Sextile Saturn**
From 19 Sep 2015 To 07 Nov 2015
(Exact 13 Oct 2015)

Right now you need to focus on the foundation areas of your life, such as your home, your job and your family. You need to ensure that all is stable, paying close attention to the details of your life. You may find yourself in situations that require you to control your emotions, rather than express them. You have the required patience and tolerance. You may rearrange your home or workplace, perhaps renovating, restructuring or moving premises. At times you feel that you are alone, but this will pass. The more that you can strengthen and stabilize all areas of your life right now, the more rewards you will reap in the future.

**Moon in Sagittarius**
From 01 Nov 2015

You will delight to learn that it is now time to lighten up. After an intense period of introspection and seemingly inescapable attention to detail, you can now step back and look at the big picture. Perhaps you
have been researching a special project and now you can publish or release your work. Alternatively you could have been putting in the background work on a business project and now is the time to step forward and reap the benefits. Perhaps you have been required to put the needs of other people first and now you are released to explore your own interests. Whatever the specifics of your recent past situation have been you can now expand your horizons. You feel a yearning for adventure and independence, and an instinctual urge for exploring new horizons. You will want to go on an adventure whether this is travelling abroad, starting a study course, expanding your business interests, meeting new and different people, embarking on a religious quest or simply trying new hobbies and activities. Obviously your circumstances will dictate the extent to which you are free to explore new avenues. For instance if you are a parent of young children then perhaps a new hobby is more appropriate than embarking on a round world trip. In fact your loved ones may feel a bit threatened by your newfound independence and change of focus. You need to find a balance between exploring your own interests and ensuring that they feel included. Your urge to expand your own horizons need not exclude others. However, if they try to severely clip your wings you are likely to feel the urge fly the coup. This is true for your personal and professional life. Your urge for freedom and independence is so great that you are also likely to fight for your rights. As a result you need to be wary of legal battles. Of course you could succeed in court, but be aware that you will bear the consequences, either positive or negative, in your next phase of life. Caution does not play a prominent part in your life right now, so choose your legal counsel well. On a more positive note, if you have wanted to travel abroad then now is the time. If you do not have the means or opportunity to travel abroad then you might find ways to meet friends from different cultures. People from all walks of life currently fascinate you because you are challenging your own beliefs and way of life. Now is the right time to broaden your horizons before you need to consolidate on them in your next phase of life.
